MESSAGE FROM THE CEO

Welcome to Globex Corporation. You are now part of a family. A highly structured, meticulously organized, and globally dominant family. Here at Globex, we don't believe in the unpredictable chaos of modern startups. We believe in order, efficiency, and a unified vision to conquer our chosen markets.

I built this company on a simple premise: if you provide employees with the finest facilities in the world—like our beautiful Cypress Creek campus—they will have no reason to ever want to leave. Our goals are ambitious. We are reshaping global energy, redefining international logistics, and building a future that we control. To achieve this, I need your undivided attention, your unquestioning loyalty, and your physical presence.

Read this handbook carefully. It is not a set of suggestions; it is the law of Globex. Follow it, and you will be richly rewarded. Deviate from it, and you will find that our Human Resources department is both swift and uncompromising.

Now, let's get to work.

Hank Scorpio

Chief Executive Officer & Supreme Founder

SECTION 1: EMPLOYMENT PHILOSOPHY & IN-OFFICE MANDATE

Globex Corporation's success is built on a foundation of absolute control and synchronized effort. We do not subscribe to modern theories of decentralized workflows or "flexible" work environments. Productivity is measured by presence, and loyalty is measured by visibility.

Our Cypress Creek headquarters is a state-of-the-art facility designed to cater to every professional need, thereby eliminating the necessity for any employee to perform their duties elsewhere. From our on-site subterranean cafeterias to our high-security sleeping pods, everything is provided to ensure you can maximize your time at your designated workstation.

ZERO-TOLERANCE REMOTE WORK POLICY

Under no circumstances is remote work permitted at Globex Corporation. The in-office mandate is 100%. Employees must report to their assigned desk, laboratory, or control console Monday through Friday.

Standard operating hours are rigorously enforced from 07:30 to 18:00. Entry and exit are tracked down to the microsecond via dual-factor biometric scanning (retina and fingerprint) at all facility checkpoints. Employees arriving at their desk after 07:30:59 will be logged as tardy. Accumulating three tardy infractions within a single fiscal quarter is grounds for immediate disciplinary review.

The concept of a "home office" is unrecognized by Globex Corporation. Any hardware or intellectual property removed from the Globex facility to a private residence without Level 4 written authorization will be treated as an act of corporate espionage, triggering an immediate security response.

SECTION 2: COMPENSATION & HAZARD PAY

Globex Corporation offers highly competitive base compensation, calculated to ensure financial stability and total dependence on the corporate structure. Salaries are distributed on the first of every month directly into your mandated Globex Federal Credit Union account. We do not recognize external banking institutions for payroll purposes.

Due to the unique nature of our advanced research and global operations, many roles require operations in environments that pose significant physical risk. We proudly offer a robust Hazard Pay tier system to compensate for potential loss of limb, life, or localized vaporization.

Hazard Tier	Operational Environment	Compensation Multiplier
Tier 1: Standard	Office sectors, administration, above-ground logistics.	1.0x Base Salary
Tier 2: Sub-Level	Nuclear testing sectors, laser calibration labs, subterranean armories.	1.2x Base Salary
Tier 3: Extreme	Active Volcano Lair operations, Project Arcturus testing grounds, front-line paramilitary logistics.	2.0x Base Salary

Employees assigned to Tier 3 must update their Last Will and Testament with the Legal Department on a bi-annual basis. In the event of a total systemic failure resulting in employee disintegration, Globex guarantees a tasteful, closed-casket memorial service at corporate expense, provided the employee's timecard was punched prior to the incident.

SECTION 3: TIME OFF & ATTENDANCE

Time away from the facility is time not spent advancing the corporate mission. However, Globex Corporation recognizes the biological necessity of occasional rest to prevent total operational burnout.

All full-time employees, regardless of tenure or executive tier, are strictly limited to exactly **10 days of Paid Time Off (PTO)** per calendar year. This allocation is non-negotiable and does not accrue or roll over. Any PTO not utilized by December 31st is forfeited back to the corporation. Taking unpaid leave is strictly prohibited; if you are not being paid to be here, your commitment to the company is compromised.

PTO requests must be submitted in writing to your direct superior no less than 60 days in advance. Requests for time off during Project Arcturus mobilization phases (typically Q3 and Q4) will be categorically denied.

SICK LEAVE & MEDICAL VERIFICATION

Sickness is an inefficiency. Employees are granted a maximum of 3 sick days per year. If you are absent due to illness, you must report to the Globex On-Site Medical Bay immediately upon your return. A corporate-appointed physician will conduct a blood draw and full physical examination to verify the legitimacy of your illness. Falsifying illness to avoid corporate duties is punishable by retroactive salary docking and reassignment to Tier 3 hazard duties.

SECTION 4: FISCAL RESPONSIBILITY & EXPENSES

Globex operates with military precision, and our accounting department is no exception. Corporate funds are to be treated with absolute reverence. Frivolous spending, undocumented transactions, and estimation are entirely forbidden.

While business travel is rare—as most operations can be commanded from our central hub—when travel is mandated, employees must adhere to a brutalist approach to expense tracking. The maximum allowable per diem for food and lodging combined is strictly capped at \$95.00 per day.

The Triplicate Receipt Protocol

Digital receipts, credit card statements, and email confirmations are completely invalid for reimbursement purposes. Globex Accounting requires physical, itemized paper receipts for every single transaction, processed via the following protocol:

- The original physical receipt must be pasted flat onto an official Form X-44 Expense Sheet.
- Two physical photocopies (the "triplicates") must be made and stamped by a notary within the facility.
- The copies must be filed manually with the Accounting, Internal Audit, and Employee Dossier departments simultaneously.
- Any expense missing a physical receipt, even if the total is under \$1.00, will be instantly rejected and marked as fraudulent activity.

PROHIBITED EXPENSES

Globex will never reimburse for alcohol, entertainment, non-corporate internet access, or "team building" activities. Furthermore, any expenses incurred at companies recognized as direct global adversaries of Globex will result in an immediate internal security investigation.

SECTION 5: IT SECURITY & SURVEILLANCE

Information is power, and at Globex, we ensure that power remains centralized. Our network is a closed-loop system entirely disconnected from the public internet. Accessing the external web requires explicit permission and is routed through heavily monitored proxy servers.

Expect zero privacy while on Globex property. All electronic communications—emails, instant messages, terminal inputs, and VOIP calls—are recorded, archived permanently, and analyzed by an AI-driven behavioral monitoring system. Keyloggers are installed on every piece of hardware. Audio sensors are embedded in all office fixtures to monitor sentiment and detect unauthorized strategic discussions.

Prohibited Hardware & Devices

To prevent data exfiltration, the following items are strictly banned from all Globex facilities:

- **Personal Mobile Devices:** Smartphones, tablets, and smartwatches must be surrendered to the lead-lined security lockers prior to passing the primary security checkpoint.
- **Removable Media:** USB drives, external hard drives, or any hardware capable of storing data. Port insertion on Globex terminals triggers an automatic silent alarm.
- **Unauthorized Stationery:** To prevent physical espionage, only Globex-issued pens containing proprietary, trackable ink may be used on site.

SECTION 6: WORKPLACE CONDUCT & DRESS CODE

Your appearance and behavior reflect directly upon Mr. Scorpio and the corporate mission. We expect unquestioning obedience, rigid formality, and a professional demeanor devoid of unnecessary emotional display.

Fraternization between departments is discouraged to prevent the formation of unauthorized sub-factions. Communication should remain strictly operational. If an employee expresses dissent regarding corporate objectives, it is your contractual obligation to report them to Internal Compliance via the anonymous terminal tip-line.

CORPORATE MASCOT NOTICE

Our corporate mascot, Homer the Nuclear Technician, serves as a critical reminder of the consequences of incompetence. Homer represents the exact archetype of the unfocused, safety-violating employee that Globex seeks to eliminate. When observing the Homer warning posters, remember that ignorance is a fireable offense.

Strict Dress Code Enforcement

- **Men:** Dark, tailored suits (charcoal, navy, or black). White shirts only. Ties must be solid colors. Closed-toe leather oxfords polished daily. Facial hair must be clean-shaven or trimmed to a maximum of 2mm.
- **Women:** Formal business suits or conservative dresses. Neutral tones only. Professional footwear.
- **"Casual Friday" is an explicitly banned concept.** Relaxation leads to operational oversight. Anyone attempting to wear denim will be escorted off the premises by armed security.

SECTION 7: FACILITY NAVIGATION & SECTORS

The Globex Cypress Creek headquarters is a sprawling, multi-tiered complex. Navigation is restricted strictly by your assigned security clearance. Employees are only permitted in sectors explicitly required for their daily duties. Wandering is considered highly suspicious behavior.

Security Badge	Allowed Sectors	Restriction Notes
Blue (Level 1)	Admin, Cafeteria, East Wing	Standard operational access. Ground floor only.
Red (Level 2)	Labs, Engineering, Lower Levels	Requires secondary retina scan. Heavy machinery present.
Black (Level 3)	Executive Floor, Server Core	Strictly limited to VPs. Armed escort protocol applies.
Gold (Level 4)	Volcano Lair, Doomsday Command	CEO and direct lieutenants only. Lethal force authorized for trespassers.

If you find yourself in a hallway with red flashing strobes and a siren sounding, you have breached a Level 4 sector. Do not run. Lie flat on the floor with your hands behind your head and await the security sweep teams. Attempting to flee will result in the deployment of automated pacification measures.

SECTION 8: TERMINATION & NON-DISCLOSURE

Employment at Globex Corporation is at-will, meaning the company may terminate your employment at any time, for any reason, without prior notice. Given the highly sensitive nature of our global operations, the termination process is rigorous and irrevocable.

Upon termination, you will have precisely four minutes to clear your desk under the supervision of two armed guards. All personal items must fit into a standard 12x12 cardboard box. Any data on your terminal remains the property of Globex. You will be escorted to the perimeter gate and your biometric data will be scrubbed from the active roster and moved to the external threat database.

The Lifetime Non-Disclosure Agreement

By accepting employment, you have already signed the Globex Lifetime Non-Disclosure Agreement (NDA). This agreement survives your termination. You are forbidden from discussing Globex operations, the existence of the Cypress Creek facility, or the specifics of Project Arcturus with anyone, including law enforcement or federal intelligence agencies, for the remainder of your natural life. Globex legal counsel is highly litigious and maintains a global reach.

DECLARATION OF ABSOLUTE COMPLIANCE

I hereby acknowledge receipt of the Globex Corporation Employee Handbook. I submit entirely to the policies, restrictions, and disciplinary measures outlined herein. I understand that loyalty to Mr. Scorpio and the corporate mission supersedes all other personal or professional obligations.
